**3. Since opening, how many patients have been admitted to the clinic(s)?**

Response re question two applies.

**5. NHS England has said it will cease to fund Long Covid services nationally from end of March 2024 with ICBs taking control of funding decisions. Has your ICB decided if it will continue funding the long covid clinic(s)?**

NHS England has not indicated that national funding for Long COVID services will cease after March 2024. It is anticipated that funding from NHS England to support Long COVID services will in future be allocated directly to ICB's.

NHS England have supported the establishment Long COVID services across the country in accordance with the clinical pathway outlined by the National Institute of Health and Care Excellence and the standards set out in NHS England's national commissioning publications. From April 2024, NHS England's central Long COVID programme which directed long COVID policy and establishment of services will cease as long COVID services are delivered as business as usual for the NHS, which means that ICBs will be responsible for the continued delivery of these services, in accordance with the guidance established, and population need.
