Dear

FOI-0124-686

Your request for information under the Freedom of Information Act 2000

Thank you for your request for information received on the 16th January 2024. We can confirm that the Staffordshire and Stoke-on-Trent Integrated Care Board can provide the following information.

An anonymised copy of this response will be made publicly available on the ICB website.

Please see our responses in blue below:

All information / statistics / results relating to the information collated / detailed in the forms completed in the Annual Review Form with regard to using the NHS appliance - namely Indwelling Catheters.

- 1. How many forms were actually completed and returned to you? (please advise monthly figures and annual figures).**
- 2. Are providers required to provide an AUR to check all patients using an NHS Appliance? i.e. Indwelling Catheter? Is the AUR standard practice?**
- 3. How long should the NHS Appliance Use Review form be kept by any organisation who completes the AUR Form (what is deemed reasonable)? (1 Year? 5 years?).**
- 4. I would like to know what Appliance the AUR was for. I.e. I would like the information with regards to all Indwelling Catheters. Are these forms only used for Indwelling Catheters for all NHS Appliances?**
- 5. Page 2 - In the Section - I would like the data/ results**

*** What was the Appliance being reviewed on the AUR Form.**

* How many users/patients answered 'Yes' they were happy with the service provided? How many answered 'No'.

* How many users/patients advised that they had experienced pain? I would like all results / information / statistics for this point with regards to Indwelling Catheters.

* How many users/patients advised that they had any issues with their skin whilst using the NHS Catheter Appliance (please advise figures each month and also the annual figures/results) I would like all information / statistics for these results / any information

* How many users/patients advised that they had any new concerns? What where those concerns?

I would like the information/results of the Indwelling Catheter AUR Review Forms results / information to be provided both monthly results/figures and annual results/figures for this form.

Monthly and Annual AUR Results / data from the form since 2018 (the last 6 years) if possible

Jan 2018 to Dec 2018

Jan 2019 to Dec 2019

Jan 2020 to Dec 2020

Jan 2021 to Dec 2021

Jan 2022 to Dec 2022

Jan 2023 to Dec 2023

Could you also advise me of the reason for the data collection for NHS Appliance Annual Review Form - Catheters?

My understanding is: 'to establish the patient's use of appliance and the patient's experience and identify, discuss and assist in the resolution of poor or ineffective use of the appliance'.

Can you advise how many times the Healthcare provider, who has completed an AUR with a patient, has assisted in resolving any issues indicated on the form with regards to experiencing pain whilst using the Appliance i.e. catheter and/or the patient has experienced skin integrity problems? Who would be responsible for collecting this data ?

Could you advise whether the information provided on the NHS Appliance Annual Review Form results are shared with anyone? What would the end to end process be? Also how are results / data findings shared to improve patient experience etc?

Indwelling Catheters - NHS

I also request all data collected with regards to any reported issues or recorded problems with regards to the use of indwelling catheters I request all information held by the NHS and also any data on 'no recorded problems' or 'recorded issues' with regards to the use of indwelling catheters that the NHS has collected with regards to any reported problems 'or not' with regards to the use of indwelling Catheters by NHS patients in the UK.
